- Addition and Subtraction to 10
- Money
- Fractions

Art

In Art Class, children use a variety of mediums to create unique masterpieces. Each grade learns a variety of techniques appropriate for their age to enable the child to express themselves through art. The general skills that are taught are broken down by grade below:

- Fine Motor Skills
- Patterns
- Color Theory – primary and secondary colors
- The Elements of Art
- Ceramics
- Drawing Skills

Spanish

In all of our classes we want to create an atmosphere of learning and understanding basic Spanish to be built upon as the years go on. We desire to see the children enjoy learning about another culture and adding to their education during the early years and be prepared for advancing in that language, if they desire, in Jr. High and High School. We will have workbooks, flash cards, songs, puppets, coloring and games as we journey along in this learning adventure.

The goal and outcome for Kindergarten Spanish is for them to know and have an understanding of basic vocabulary, numbers, greetings, family names, colors, some objects, and intro into days and months. We will also have them write out single word answers. We are using Step 1 in our curriculum, all year.
